

***BT Bamboo French white***

**Lime washed look, eco friendly stained BT Bamboo flooring**

Coloured floors seem to be increasingly popular with the latest design trends. We now have some exciting alternatives for custom stained pre-finished floors.

- Lime wash look white floors
- Pre-finished in Australia with eco friendly, very durable coating
- Hand stained in colour of your choice
- Cost effective
- No messy on site staining and coating

**BT Bamboo Light Sand vertical wide T&G boards (152 x 1830 x 15mm)**

The BT Bamboo raw boards are being hand stained and coated in an Australian factory. There are no harmful VOC's in the paint at all and the coatings are eco friendly and UV cured and generally more durable than on site coating.

Off site staining ensures more consistent staining and coating and means there is little or no down time to stain and coat on site and no mess, no fumes and no waiting for coats of varnish to dry.

The most popular colours are Bright White and French white. In fact customers can choose any colour they want for staining that are on the Dulux 101 colour chart!!!
