

Style CARE & MAINTENANCE

HOW TO CARE FOR YOUR STYLE FLOOR

- Vacuum or sweep floor regularly. General cleaning once a week is recommended
- Remove spills promptly
- Place mats at exterior and interior doors to trap sand and grit from incoming traffic
- Use rugs on high traffic areas
- Attach soft pads to the base of all furnishings in contact with the floor
- When moving heavy furniture or appliances, always pick them up rather than sliding them across the floor
- Keep pets' claws properly trimmed to avoid excess scratches
- Maintain a consistent humidity of 35-55% in the room- if necessary use a humidifier/dehumidifier
- Any mirror scratches or damage can be repaired using Bona® repair kits available from most good flooring retailers.

WHAT NOT TO DO

- Do not steam mop or wet mop floor surface area after installation. Too much water can cause it to swell and warp
- Do not let sand, dirt or grit build up. They act like sandpaper and actually abrade and dull your floor finish
- Avoid walking on your Style floor in narrow points or stiletto heels as this may scratch the coating
- Do not use waxes, oil soap or other household cleaners on the floors as these may dull the surface and make refurbishing difficult
- Do not roll or slide heavy furniture or appliances across flooring

Style 3 EASY STEPS TO CLEAN

Style recommends using the Bona® range of cleaning products to ensure your Style floor stays looking as good as when you bought it.

Bona® Hardwood Floor Cleaner is a water-based, non-toxic cleaner which is specially designed for polyurethane finished hardwood floors. Unlike all-purpose cleaners and oil soaps, it quickly cleans tough stains and spills- from red wine to scuff marks- all without dulling your floor's beautiful finish or leaving any residue. No mixing or diluting is necessary- just spray on and wipe. It's as simple as 1, 2, 3:

1.VACUUM

Vacuum, dry mop or sweep to remove any loose dirt or grit.

2.SPRAY

Lightly mist a 1-2m2 (4"x6") area of your Style floor or directly mist the cleaning pad with Bona® Hardwood Floor Cleaner.

3.WIPE

Using a back and forth motion, clean the floor surface with a microfiber cloth or mop until dry. Replace a soiled mop or cloth when it becomes soiled to avoid streaking.

Bona® cleaning products are readily available in all good hardware and DIY shops. For more information, please visit the Bona® website at MyBonaHome.com.
